

# BSN Nursing

## MAJOR: NURSING (BACHELOR OF SCIENCE IN NURSING)

The Nursing program prepares students as generalists in positions of all areas of nursing practice, and provides a wide variety of clinical experiences through local hospitals, schools, and agencies.

### Nursing Simulation Center

Learn and practice in our 9-bed NSC lab with two break-out rooms and 8-bed skills lab. Each are equipped with cameras and microphones to record and evaluate simulation experiences.

### Nursing Faculty

The faculty are committed to our student's success, and are on a first-name basis with students. Faculty and staff are always ready to help students succeed.

**EMPLOYMENT RATE  
FOR OUR NURSING  
GRADUATES**

**A WELL-EARNED ACADEMIC REPUTATION FOR  
HARDWORKING, ACCOMPLISHED STUDENTS**

The baccalaureate degree in nursing (BSN) at Truman State University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org/>) and is approved by the Missouri State Board of Nursing (MSBN).

## WHAT MAKES THIS PROGRAM SPECIAL?

This program boasts a lower cost compared to similar nursing programs at other universities, while offering readily-available faculty and staff that engage with students on a personal level. The clinical experiences available are varied, complex, and will more than adequately prepare students for a career in healthcare, with the NCLEX-RN pass rate consistently topping over 90%.

## AFTER GRADUATION:

Following graduating from this program, over 30% of our students plan to pursue an advanced degree to further their studies in healthcare and nursing.

*Our faculty are able to provide close partnership with clinical sites for students in the program. We provide diverse clinical exposures to our students, including critical access hospitals as well as tertiary facilities.*

*Completion of the nursing program does not guarantee eligibility to take the licensure examination (CSR 2200-2.120 Section 335.066 RSMo)*
