AFTER GRADUATION:

Following graduation, students in this program will be well-prepared for graduate studies in political science, international studies, and both public and business administration and policy, to name only a few. Many more career opportunities await you beyond your studies, including government, business, politics, law, teaching, consulting, and international relations.

Truman offers a 3+3 law school pathway agreement with a few select schools allowing students who qualify to transfer into law school after completing only 90 credit hours.

WHY POLITICAL SCIENCE?

This program offers students a chance to better understand the world around them, by learning and studying the geopolitical forces at play and history behind them. Political Science and International Relations teaches students the where, why, and how of government, public policy, and political ideas all across the world.
